

Directions

Pretend that you are an alien from a planet in our solar system. You are sending a postcard to your twin self that has been living on Earth their whole life.

1. Address the postcard to your Earth twin.
2. Write about what life is like on your planet. Use both facts and fiction to make your postcard funny!

Example: I've been out skateboarding on the rings that hang around Saturn.

3. Then create a drawing of the planet and the alien on the other side.
4. Finally create a stamp for your postcard.
