SAMPLE SERVICE CONTRACT
FOR COLLECTION OF SOLID WASTE AND STREET CLEANING

Overview of the Sample Service Contract

The development of effective private sector partnerships in the waste management sector has been identified as a first step to building a stable framework for the development of private sector participation (PSP) in SWM in [COUNTRY]. [MINISTRY] has identified as one of the priorities for PSP in [COUNTRY] improved service contracts for street sweeping, waste collection, operation of waste transfer stations and operation of landfill sites. As one of the first steps, the [MINISTRY] recognizes the need to develop bidding documents for these contracts, following international good practice.

These Sample Bidding Documents address service contracts for waste collection, operation of waste transfer stations, and operation of landfills in order to reflect the specific needs of [COUNTRY]. To avoid overlapping with other contract types, and in particular the generic bidding documents being prepared for the design, build, and operation of landfill and transfer stations, the generic bidding documents for waste collection only cover services and not investments in facilities which cannot be removed in the event of regular or early termination of the contract.

The Sample Bidding Documents have been developed as a template for producing typical bidding documents. It should be used as a baseline for case by case development of project specific bidding documents.

Care should be taken to check the relevance of the provisions of the standard documents against the requirements of the specific services to be procured. The Sample Bidding Documents for Waste Services need to be adapted to the circumstances of each project.

This document contains the sample bidding documents for a service contract in solid waste management and includes:

- Sample Contract
- Appendices to the Contract – Performance bonds

The sample service contract has been developed assuming that payment for services will be on a Bills of Quantity unit price basis.

---

2 For the use of these sample bidding documents, it is very important to note the following:

1. The documents should only be used as background reference – definitely do not "cut and paste" without reviewing circumstances in detail.

2. The contracts should be reviewed to ensure that they are consistent with the laws of [COUNTRY].
