PM "A" PREVENTIVE MAINTENANCE also known as a "safety inspection" consists of a safety check and lubrication as well as checks of key components such as brakes, lights, tire condition and inflation, and fluids. It also includes checking and adjusting high-wear components. The normal interval for "A" service is between 5,000 and 10,000 miles.

PM "B" PREVENTIVE MAINTENANCE normally includes all PM A items, and also include an oil and filter change as well as more in-depth checks of the engine and driveline. The normal interval for "B" service is 10,000 to 20,000 miles. A PM B should also include a download of the ECM and action on any trouble codes or problems reported by the ECM (if applicable).
